

## Security Device Enclosed

Have you ever worried about being mistaken for somebody else? How about a criminal or even a terrorist? Neither had Todd Winters, especially since he lives in a world where technology has made mistaken identity a thing of the past. Todd Winters is a normal businessman with a wife and two kids who is trying to get home after making the big sale. At the airport, he is misidentified as a terrorist. Somehow, he has to survive arrest and detention as he tries to find a way to convince the government officials that he is not the notorious Todd Manning.
