

## Red and Patch

A young dog runs away because hes not wanted. Where does he go on that foggy January evening? As he runs into a new world of back alleys in the fringes of an English town, is there any place of safety? Can he hold onto any of the waste food or will it be taken from him by older, stronger strays?The writer explores the harsh realities of dogs without owners. Patch meets and instinctively follows Red, a stray surviving on her wits. Throughout their daily struggles bonds are built that defy the savagery of this twilight world. But the dog-catchers arrive and the bonds of friendship are tested to their limits.
