

ISO/IEC ISP 11185-11:1994, Information technology - International Standardized Profiles FVT2nn - Virtual Terminal Basic Class - Register of control ... FEPCO (Field Entry Pilot Control Object) No.1

Contains the type definition of a Field Entry Pilot Control Object that provides substantial facilities during data entry for local processing under application control. Intended for use in form-filling, text editing and similar applications during a VT-association in S-mode operation.
