

The Creatives

Like all cubical-bound underlings at Stranton Advertising, Lissy Swanson is desperate to become a Creative. Her impossibly chic superiors enjoy liquid lunches at hip restaurants where intricate bits of sushi are served on bare midsections of androgynous models while she buries herself in dreaded data entry. When her dreams of Creativedom are finally realized, Lissy is thrilled to work on her first real account - a new drug that scorches fat, bronzes skin and fires up dormant libidos: the Barbie Pill. She plans the perfect campaign, targeting new mothers dying to shed baby weight and rekindle their more adult desires. When Lissy discovers the beauty pills ugly secret, she must choose between a promising new love interest and succeeding in the glossy world of Los Angeles advertising.
